

## ***“Surviving The Economic Downturn”***

It seems that the companies' who are the most proactive are the ones who are thriving in today's climate. Sitting back and waiting for the economy to pick up is not the answer!

Even though interest rates are the lowest for over 20 years, companies still need be proactive in their marketing to survive economic downturn. Looking for opportunities, becoming the 'hunter-gatherer' once again, and going back to basics. Imagine yourself as new company where nobody knows about you, your product or services. How do you get your message across to generate new sales leads?

This is really easy and even though challenging can be enjoyable. Using your initiative, running promotions and getting yourself out there again!

Gala Tent can provide you with the tools to promote your business small or large. You need be out there 'hunting' for business. If you're saving for a rainy day, then sure enough that rainy day will come!
